You too can be the best in your chosen field

MUTTIAH MURALITHARAN
The highest wicket taker in the world of cricket with an amazing 800 wickets
FedUni and ATMC work together to provide students with relevant, high quality education. Our programs are delivered in a personalised learning environment with a student-focused approach.
Welcome Messages

DR. JOHN EDWARD HARVEY AO
Chairman, ATMC
Member, Board of Directors, IBM Australia and New Zealand

ATMC is an affiliate institution of Federation University Australia which is one of Australia’s oldest higher education providers having a proud history stretching back over 130 years. ATMC has two Federation University Australia campuses in the State of Victoria; one located in the city of Melbourne & one in Geelong, a regional city about 80 km from Melbourne and one Federation University Australia campus in Sydney in the state of New South Wales.

Throughout all the Federation Australia University courses we try to provide opportunities for students to be involved in the workforce. At ATMC we aim to produce students who have the highest levels of education ability and who will be able to find excellent positions in the workforce when they graduate.

We welcome you to approach ATMC to gain more knowledge of the programs that we offer and to take the next step in your education and your future career.

PROFESSOR DAVID BATTERSBY
Vice-Chancellor
Federation University Australia

Federation University Australia (FedUni) had its beginning in 1870, making it the third oldest tertiary institution in Australia. Since then we have forged close links with our region, as well as our national and international partners. Our 25,000 students now studying at FedUni are able to choose from a wide range of Higher Education and TAFE programs.

FedUni is renowned for its teaching performance, graduate satisfaction and starting salaries – as well as being one of Australia’s leading regional universities. We are delighted to work in association with the Australian Technical and Management College (ATMC) to enable students from around the world to obtain a valued qualification from the Federation University Australia.

FedUni is the only Victorian university to record a maximum five-star rating for teaching quality for 2010, 2011 and 2013 Good Universities Guide.

The University guarantees the quality of its programs delivered at ATMC. If you successfully complete one of these programs you will receive an internationally recognised qualification.

In an increasing global environment your international experience and qualifications will enhance your career and personal life as well as the lives of your family, friends and those in the broader community who depend on skilled hands and active minds.

On behalf of the University, I wish you every success in your chosen program at ATMC.

DR MANISH MALHOTRA
Managing Director
Australian Technical and Management College

Welcome to the Australian Technical and Management College (ATMC), an ideal education provider for students seeking an industry-relevant curriculum.

ATMC offers a variety of programs in Information Technology, Management, Business and Accounting at Diploma, Bachelor and Master degree level. The Bachelor and Master degree programs are offered in association with the Federation University Australia (FedUni).

FedUni and ATMC work together to provide students with relevant, high quality education. Our programs are delivered in a personalised learning environment with a student-focused approach. On successful completion of a Bachelor or Master degree program, graduates are awarded a Federation University Australia degree that is internationally recognised.

I wish you all the best in your studies and look forward to getting to know you at ATMC.
Introduction of ATMC & Federation University Australia

AUSTRALIAN TECHNICAL AND MANAGEMENT COLLEGE

Australian Technical and Management College (ATMC) is a nationally recognised institute in Melbourne, Sydney and Geelong, Australia. It also has a campus in colombo, Sri Lanka. ATMC in association with the Federation University Australia (FedUni) offers an exciting collection of Bachelor Degrees, Associate Degrees, Graduate Diplomas, and Master degrees in Information Technology and Business Information Systems, and Bachelor Degrees in Business and Accounting.

The Federation University Australia was acknowledged in 2010 as the only university in the state of Victoria to achieve 5 out of 5 stars in the Good Universities Guide for its teaching quality. In the 2011 and 2013 Good Universities Guide the Federation University Australia again achieved 5 out of 5 stars for its teaching quality.

ATMC offering over 20 Certificates, Diplomas, Advanced Diplomas, Associate Degrees, Bachelor Degrees, Graduate Certificates, Graduate Diplomas and Masters’ Degrees programs, is definitely an ideal education provider for those seeking an industry-relevant curriculum which helps students achieve successful outcomes in their chosen field.

At ATMC we set a high standard for the provision of international education in Australia. Our commitment to excellence is demonstrated by the exemplary use of our Academic Support System which ensures a student’s stay in Australia is not only highly successful but enjoyable.

Our graduates are now utilising their internationally recognized qualifications and are working in a host of diverse workplaces around the world.

ATMC and FedUni are working in partnership with the goal of providing students with high quality education. Students at ATMC’s Melbourne campus enjoy studying in one of the most liveable cities in the world and ATMC’s Geelong campus is in a sensibly priced city that offers a great alternative to students seeking a regional lifestyle. ATMC students choose from a range of internationally recognized qualifications in Information Technology, Business Information Systems, Management, Business and Accounting and benefit not only from the high standard of teaching, but from degree programs designed to produce industry-ready graduates.

FEDERATION UNIVERSITY AUSTRALIA

The Federation University Australia (FedUni) is Australia’s only regional multi-sector university. FedUni is the third oldest site of higher learning in Australia, and offers secondary schooling, technical and further education (TAFE), higher education, and research opportunities.

FedUni has six campuses, located at the Mt Helen, SMB and Camp Street campuses in Ballarat and at Horsham, Stawell and Ararat. FedUni also works with a range of partner institutes across Australia and the world. FedUni has around 25,000 international and domestic students. FedUni is committed to serving regional Victorian communities, yet has a broad national and international outlook. FedUni offers the best of both worlds, combining a strong tradition of 140 years of tertiary education with the freedom and dynamism that comes with being a multi-sector University with close links to local industry and technology.
ATMC Campuses
ATMC Campuses

Melbourne

- Melbourne offers an excellent quality of life.
- It’s one of the world’s most livable cities.
- Melbourne is a leading education destination for international students.
- In 2012, the QS World University Rankings judged Melbourne as the leading student city in the Asia-Pacific region. The 2013 QS rankings confirm Melbourne’s position as one of the world’s top five student cities.
- Part time work opportunities.
- Melbourne, Victoria is a global centre for excellence in education, offering students the opportunity to make their mark in leading research and innovation facilities.
- With the courses recognised globally, a qualification from Melbourne, Victoria is a passport to careers in almost any country.

- Melbourne is a leading education destination for international students.
- Melbourne city has world-class universities that provide internationally-recognised qualifications, as part of a cosmopolitan, multicultural community that celebrates culture, food, fashion and entertainment.
ATMC Campuses
Sydney

- The biggest city in Australia and the country’s financial and economical hub.
- Ranked as one of the ten most livable cities in the world by both Mercer and The Economist.
- Part time work opportunities.
- Discounted travel program for International Students on Public Transport.
- Offers the best of urban and outdoor living with temperate climate all year round.
- International students learn with Australian students in safe, friendly, multicultural classrooms.
- World-class universities, plus our relaxed lifestyle and wonderful climate make NSW a destination of choice for students from around the world.

- Sydney is the biggest city in Australia and the country’s financial and economical hub.
Geelong is the second largest city after Melbourne, providing a gateway to the world famous Great Ocean Road with its beautiful beaches and parklands.

Geelong offers international students the best of both worlds - a relaxed atmosphere with some of Australia’s greatest surf beaches, world class education programs and facilities and easy access to Melbourne.

Only an hour from Melbourne, Geelong is a busy city that offers a world-class education.

The best place to enjoy a great outdoor lifestyle and a friendly campus community in regional Victoria.

Small communities in peaceful environments.

Lower housing costs than in Melbourne.

Workplace experience and job opportunities.
Why study Federation University Australia programs at ATMC

QUALITY INDUSTRY FOCUSED PROGRAMS
FedUni’s programs are regularly updated to suit specific trends in the ever changing international environment. The University’s close association with industry assists in the design of the programs to benefit our new graduates. ATMC is absolutely committed to keeping the degree programs offered up-to-date at all times, and relevant to the industry environment nationally and internationally.

INTERNATIONALLY RECOGNISED QUALIFICATIONS
FedUni qualifications are accredited by leading industry bodies and recognised worldwide.

ACCESSIBLE ACADEMIC FACULTY AND STAFF
At ATMC, you are a name, not a number. Academic and administrative staff will quickly get to know you.

SMALL CLASS SIZES
At ATMC our class sizes are small, so that your learning experience is enjoyable and you do not get lost in the crowd. Your individual learning needs are of utmost importance to us.

MODERN EQUIPMENT
Resources are put back into the College to develop facilities and services that benefit you as a student. The College employs contemporary technology in all aspects of the business, delivery of classes, and services.

EXCELLENT TEACHING & LEARNING ENVIRONMENT
Our classrooms are spacious, fully air-conditioned and inviting. They are equipped with technologically up to date learning and teaching equipment and resources. ATMC is dedicated to providing the latest and best hardware and software solutions for all our students. From diverse operating systems (such as Windows, Linux and UNIX) to high end software (such as .NET, Java Enterprise, Case Tools etc), ATMC provides training in all of these areas. All labs are equipped with high-end HP servers, IIS web server, Database management solutions, latest multimedia workstations and wireless devices.

STUDENT MENTORS
We at ATMC recognise that students might need additional help with their academic and non academic student support services. So we assign mentors to each of our students. This service is available to all ATMC students, free of charge, whereby they are able to work with high-performing, more senior students, who act as their mentors. These mentors, students with specialised knowledge who have excelled academically, are employed to assist students, either individually or in small study groups.

ATMC CAREERS ASSISTANCE
At ATMC we provide specialist career services, including career coaching that is delivered by a qualified Careers Counsellor. These services are free to all enrolled ATMC students and include a Program on Strategic Career Management that is exclusive to ATMC. The program includes workshops that can assist with identifying career opportunities, resume development and preparing for interviews. Additional Career Assist sessions are designed to help ATMC students to maximise their employability outcomes. Sessions are scheduled regularly throughout each of the three Semesters.

EXTENSIVE ORIENTATION WEEK
We understand that the international student needs a lot of support to settle into a new country. We have designed a very extensive orientation program which covers support on accommodation, opening bank accounts, understanding health cover, resume building, placement assistance etc.

FAST TRACK THREE SEMESTER OPTION
At ATMC, you have the option to do three semesters in one year to fast-track your studies. For example this enables you to complete a three year degree one year earlier than students studying in a conventional two-semester system.

IELTS PREPARATION CLASSES
Time tabled classes are scheduled to provide students the opportunity to practice sample test questions and activities under test conditions in the four macro skill areas of Listening, Reading, Writing and Speaking. Preparation classes are available for both the Academic module of the IELTS test and the General Training Module of the IELTS test.

GENERAL LANGUAGE SUPPORT CLASSES
ATMC provides scheduled General Language Support for all students seeking to improve and enhance specific or general language skills in the four macro skill areas for Listening, Reading, Writing and Speaking.
**Student Support**

**PRE DEPARTURE**

ATMC is committed to providing detailed information and arrangements for the following services before the student leaves their country:

- General information regarding Melbourne, Sydney, Geelong and Australia
- Airport Pick-Up services
- Visa Guidance
- Health Insurance Advice
- Banking Facilities
- Support in finding a school for school-aged dependents accompanying their parents/guardians

**OVERSEAS STUDENT HEALTH COVER**

Australia has a special system of health cover for international students called Overseas Student Health Cover (OSHC). You will need to buy OSHC before you come to Australia to cover you from when you arrive. The Department of Immigration and Border Protection requires you to maintain OSHC for the duration of your time on a student visa in Australia.

ATMC has an agreement with a specific OSHC provider Allianz Global Assistance. You can choose to take out OSHC with this provider, or with the Australian OSHC provider of your choice. For detailed information, please visit; www.oshcallianzassistance.com.au

**BEFORE YOU LEAVE**

Once your Confirmation of Enrolment comes through and you have secured your student visa, it’s time to start thinking of some of the practicalities of travelling to Australia.

**PACKING**

It’s worth packing a few mementos from home that will give you some comfort when you’re missing your friends and family, but keep in mind that most airlines have a checked baggage restriction of about 20kg (about 44lb).

The type of clothing you should bring with you depends on the part of the country you will be living in, and the time of year you arrive. The Australian summer coincides with the first academic semester in February, which is when most international students arrive. This means that you can probably get by with jeans, t-shirts and light jackets. If you arrive in time for the second academic semester around July, you’ll need to pack some warm jumpers or sweaters, long-sleeved t-shirts and a coat to cope with winter weather. However, Australian winters are mild in comparison to the icy weather you’d encounter in the Northern Hemisphere. Check out www.bom.gov.au for the latest weather information around Australia.

**INSURANCE**

Chances are pretty good that your trip will go smoothly and you won’t encounter any problems. Even so, you should plan for the unexpected. Cancelled flights, lost luggage and wallets can end up costing you a lot of time and money, so take out travel insurance before you leave. It won’t guard against bad things happening, but it will protect you against having to cover unexpected costs.

All student visa holders entering Australia must have Overseas Student Health Cover (OSHC) for the duration of their stay. OSHC will help you pay for any visits to the doctor you may have while in Australia. Go to the Overseas Student Health Cover page for information on what your OSHC will cover.

**MONEY**

You should bring enough Australian currency in cash for your first few days, without carrying large amounts of cash on you. You should also have easy access to about AU$1,500 – 3,000 in travellers’ cheques (in your name) so that you can start establishing yourself and setting up your new home quickly.

Note that if you are carrying more than AU$10,000, or equivalent currency, you must declare it to Customs officials when you enter Australia.
Student Support

SHORT-TERM ACCOMMODATION
It’s a good idea to try to organise a permanent place to live before you arrive in Australia. However, you may decide to wait until you arrive to get an idea of distances between your campus and surrounding suburbs, or to inspect private rental accommodation.

ARRIVING IN AUSTRALIA
At some stage during your flight to Australia you will be handed an Incoming Passenger Card to fill in. Answer the questions accurately and truthfully, especially those about the items in your luggage that you may have to declare to Customs officials.

If you are unsure of where to go or what to do when you disembark from your flight in Australia, ask an official for help. They will guide you.

CLEARING IMMIGRATION & CUSTOMS CHECKPOINTS
Once you land, you will follow the signs to an Immigration checkpoint.
Here, you will need to show your passport, visa and Incoming Passenger Card. You may also have to show your Confirmation of Enrolment.
Once you have cleared this checkpoint you will enter the baggage hall where you can claim your luggage and proceed to Customs and baggage examination.

LEAVING THE AIRPORT
Once you have cleared all incoming passenger checkpoints, you will be welcomed to Australia and directed to the arrivals hall. If you need to exchange some money into Australian dollars you will find Currency Exchange booths throughout the airport.
If you have arranged for friends or relatives to meet you, they will be waiting for you in the arrivals hall.
Public transport is available at all international airports and most regional airports. You can generally expect that a taxi service will be available, and you may also find buses and trains.
If you are transferring to a domestic flight, follow the signs to the domestic terminal. At some of the larger airports this may be some distance, so look out for intra-airport terminal shuttle services to get you there faster.

ENGLISH LANGUAGE ASSISTANCE
The current English requirement for ATMC students is an overall IELTS score of 6.0 with no individual band score less than 6.0 or equivalent. English language assistance is available to provide ongoing English and study skills support to international students.

COUNSELING SERVICE
ATMC has a designated Student Support Officer to provide a basic counselling service to all students. This service provides assistance to students experiencing difficulties in any aspect of their lives, including issues of academic or personal nature. ATMC can also refer students to external counselling service for various issues if necessary however each issue is dealt with on a case by case basis.

HEALTH SERVICES
Details about the Health Services and Hospitals in the local area are provided during the Orientation Period. You will need to buy OSHC before you come to Australia to cover you from when you arrive.
Your OSHC will help you pay for any medical or hospital care you may need while you’re studying in Australia, and it will contribute towards the cost of most prescription medicines, and an ambulance in an emergency (only).

AIRPORT PICKUP
Airport pick up service is available to international students upon request (charges apply, see fees and charges). Students will be met at the Arrivals hall and taken to their accommodation. For further details please contact us.
Consumer Affairs Victoria and NSW Fair Trading have information on your rights and responsibilities when renting a house or apartment in Victoria and NSW respectively. They can also help if you have a complaint or problem with your landlord. Please refer to the following links and contact numbers for further information:
Victoria:
Web: www.consumer.vic.gov.au/students
Phone: 1300 55 81 81
NSW:
Phone: 13 32 20
Student Support

SUPPORT SERVICES
At ATMC we are dedicated to providing all our students with the very best support services, so that they have a successful academic and personal experience. In addition to the normal support services, international students are provided with a range of specialist services such as assistance with resume-writing and looking for part-time work. Students have access to welfare-related support services to assist with issues that may arise during their study, including program progress, attendance requirements and accommodation. These services are made available to all ATMC students.

The Student Support Officer is responsible for the orientation and on-going welfare of all international students and can be contacted via email: info@atmc.vic.edu.au

The Student Support Officer launches the student on their educational journey from orientation to organizing social activities and excursions. The Student Support Officer has access to a range of resources and services that the student may wish to access including health/legal services, study facilities/resources and welfare support. ATMC can also refer students to external counselling.

The Academic Support Officer, teaching staff and administrative staff at ATMC are also available to provide general advice and assistance with matter such as studying and issues regarding student administration.

We pride ourselves on providing international students with the highest level of support possible. So please don’t be afraid to ask!

STUDENT FACILITIES
Australian Technical and Management College provides the following facilities to support student learning

- Classrooms which are spacious, fully air-conditioned and inviting.
- Our classrooms are equipped with technologically up to date learning and teaching equipment and resources
- Internet based modern computer labs
- Library facilities
- Photocopying and printing access, students are allocated a monthly free quota
- Friendly and approachable staff and teachers

ATMC is committed to providing the best modern hardware and software solutions for all our students. From diverse operating systems (such as Microsoft Windows, Linux and UNIX) to high end applications software (such as .Net, Java Enterprise, Case Tools etc), ATMC provides training in all of these areas.

All labs are equipped with high-end HP servers, database management solutions, modern multimedia workstations and wireless devices.

STUDENT FEEDBACK
We believe in quality continuous improvement. This can only be achieved with the help of our students. As such, throughout your program you will receive feedback forms from us.

We encourage students to be as honest and direct when completing your feedback forms so that we can make your learning experience first rate.

General feedback forms can also be located at your campus reception or downloaded and emailed to info@atmc.vic.edu.au

COST OF LIVING
Australia offers a unique experience for students. Apart from a world-class education system, the opportunities to get involved in daily life are endless: whether you’re into the arts or sport, partying or book clubs, the great outdoors or cosy cafés, you’ll find many ways to join in and have fun. So if you want to get an education and have a life, it really is the place to be.

Australian Education International (AEI), suggest $18,000 per year accurately reflects the real costs of living in Australia This is exclusive of tuition fees and lifestyle expenses but covers accommodation, food, public transport clothing, entertainment, books, stationery and incidental expenses. However, international students are encouraged to undertake their own research into the cost of living in Australia, taking into consideration their own circumstances before making a decision on whether to study in Australia. For more information on the cost of living in Australia - see www.studyinaustralia.gov.au
Student Support

MELBOURNE
Victoria is not only a great place to study, live and work, Melbourne offers an excellent quality of life – making it one of the world’s most livable cities.

SYDNEY
Sydney is Australia’s largest and most famous city. It’s home to beautiful beaches, iconic buildings, historic landmarks, award winning restaurants and a vibrant culture. From the breathtaking views of Sydney Harbour to the serene tranquillity of Hyde Park, Sydney has something for everyone.

GEELONG
The city of Geelong is Victoria’s largest regional city and offers a stunning and vibrant waterfront with parks, gardens, beaches, great shopping and fabulous restaurants and bars. Geelong is a sensibly priced city and provides affordable living for international students. Student visa conditions.

The Department of Immigration and Border Protection (DIBP) is the Australian Government department which manages everything relating to your student visa. You must make sure you meet the conditions of your visa. There may also be special conditions for students on scholarships.

Make sure you read and understand all the conditions of your scholarship to ensure you comply, or else your visa may be cancelled and you may be deported.

STUDENT VISA CONDITIONS

Noncompliance
Your visa conditions are set out in the letter of approval you receive with your visa or on your visa label. It is important that you are familiar with these conditions and follow them. Every year, a number of students abuse the law by, for example, working longer hours than permitted by their visa or overstaying their visa.

If you break your conditions, your visa may be cancelled and you may be required to leave Australia. You may also be prevented from returning to Australia for three years after your visa is cancelled.

If your circumstances change and you want to change your program or provider, or you wish to stay longer, you should contact your nearest DIBP office for advice on how to make these arrangements. It is also important that you ensure your visa does not expire while you are in Australia. If you remain in Australia for more than 28 days after your student visa expires without obtaining a new one, you may be prevented from returning for three years. Please visit www.immi.gov.au for further information.

Extending your Visa
If your student visa expires before you have finished your program of study, you will need to apply for a new one at your local immigration office or at the visa section at the Australian Mission or Embassy in your home country. Further information is available on the DIBP website at www.immi.gov.au

LEARNING SUPPORT SERVICES
Your source of learning support for course content will always be your lecturers and tutors, but you can seek general academic skills support from a Student Adviser or Student Support Officer at your campus.

LEARNING CONTEXTS
Your lecture will generally contain the core information to be covered for that week. All students enrolled in the course will attend lectures as a group. The tutorial provides an opportunity to discuss the lecture and talk about topics in detail. Sometimes students are asked to present papers individually or as part of a group in a tutorial.

Laboratory Sessions (Labs or Pracs) are practical classes, where students conduct tests and experiments with the assistance and supervision of lecturers or tutors.

Self Directed Study is a student’s personal program of study which fits around the ‘contact hours’ of lectures, tutorials and labs. This personal program includes reading, research, writing up lecture notes, writing essays and reports, discussion with other students and lecturers, studying for exams, etc. A well organised and regular study program is essential for success at ATMC.

Studying in Australia may seem difficult at first. It is natural to take some time to settle into your studies. If you are having difficulties, discuss this with your lecturer or tutor. Your lecturer or tutor is available to assist you if you are not sure what is required.

You may email your lecturer or tutor to arrange an appointment with the Student Service Officer at the front desk to organise an appointment.

STUDENT MENTORS
We at ATMC recognise that students might need additional help with their academic and non-academic student support services. So we assign mentors to each of our students. This service is available to all ATMC students, free of charge, whereby they are able to work with high-performing, more senior students, who act as their mentors. These mentors, students with specialised knowledge who have excelled academically, are employed to assist students, either individually or in small study groups.
Student Support

SOCIAL ACTIVITIES PROGRAMS

An ongoing social activities program runs throughout each semester and provides opportunities for students to enjoy a range of activities outside study. We have many activities available including regular student parties, film screenings, and visits to the Immigration museum. These events are a great way to meet other students and make new friends. Event calendars are made available on enrolment.

ORIENTATION PROGRAM

A free orientation program is conducted for all new international students before classes begin and is compulsory for all newly commencing international students. The program includes an introduction to the College, its services and facilities as well as an introduction to Australian culture, society and life. Students are also introduced to the academic culture and rules of the College that are necessary for successful study. The orientation program also involves social activities, which will help you to meet other students and familiarise yourself with the campus and surrounds.

ACADEMIC OR PERSONAL SUPPORT

We at ATMC recognize that students might need additional help with their studies and therefore we assign mentors to our students. The Student Mentoring Program is all about students helping students. It connects students who are undertaking their first semester of study at ATMC with other students who are further along in their own studies. The Student Mentoring Program is open to all ATMC students, free of charge, whereby they are able to work with high-performing, more senior students, who act as their mentors. These mentors, students with specialized knowledge who have excelled academically, are employed to assist students, either individually or in small study groups.

You may also ask questions of the lecturer or tutor in class. In some cases you will be asked to make an appointment. The Academic support officer, teaching and administrative staff at ATMC are also available to provide general advice and assistance with matters such as studying and any other issues regarding student administration.

A Student Academic Support Officer is also available to assist students with any academic problems including course progress, attendance requirements and any other issues that may arise. ATMC has a friendly and approachable administration team on hand to help you with your transition to life and study in a new environment.

STUDENT VISA CONDITIONS

The Department of Immigration and Border Protection (DIBP) is the Australian Government department which manages everything relating to your student visa. You must make sure you meet the conditions of your visa. There may also be special conditions for students on scholarships. Make sure you read and understand all the conditions of your scholarship to ensure you comply, or else your visa may be cancelled and you may be deported.

ACCOMMODATION

Finding the right accommodation is one of the biggest challenges facing a new international student, and finding a place in your price range can be even harder. It is extremely important that you factor the cost of housing into your budget before you come to Australia, and have access to funds that will cover rent expenses. Keep an eye on websites like: www.domain.com.au and www.realestate.com.au. Which list properties to rent.

This should give you a good idea of the type of accommodation that is available to a person with your budget. Another good tip is to get references from people you may already have rented accommodation from at home.

Providing copies of these to a real estate agent when you apply for a property can show them that you have a proven record of being a good tenant. You should also be prepared to provide them with evidence that you have enough money to pay for your accommodation, for example with a bank account statement.

Consumer affairs Victoria has information on your rights and responsibilities when renting a house or apartment in Victoria. For further information - www.consumer.vic.gov.au

Excellent resource for the rights and regulations around renting a property or the use of a boarding / Lodging house in Sydney are the government websites: www.fairtrading.nsw.gov.au/tenants_and_home_owners.page www.fairtrading.nsw.gov.au/tenants_and_home_owners/Boarding_houses.page

TYPES OF ACCOMMODATION

There are many different types of accommodation available, so you should be able to find something that suits your needs. Most accommodation, except home stay, does not include electrical items, furniture, and bedding or kitchen utensils. Cheap household goods are available from second-hand retail outlets or are advertised for private sale in newspapers or on institution notice boards, but you may wish to bring some of your own basic items.

Temporary accommodation can be arranged for you before you leave home so that when you arrive you have some time to consider your long-term options.

PUBLIC TRANSPORT

Victoria: Melbourne and Geelong both have plenty of transport options to get you around town or across the country. Australia’s public transport system is comparably safe and affordable (in some cases, it’s even free). Depending on where you live it can include trains, buses and trams. You can buy tickets at train stations, and at news agencies or on board buses and trams.

For bus, train and tram timetables, maps and fares go to www.ptv.vic.gov.au.

Regional Trains: Getting to and from Geelong is made easy by the fast commuter rail service that travels to and the city regularly. Contact V/Line on 136 196 or www.vline.com.au for timetable and fare information.

Student Support

STUDENT SAFETY
Being a student is an exciting time where you will make new friends and experience different learning opportunities. It is important to enjoy your city and your campus, for more information visit the following: www.atmc.vic.edu.au/support_service.html
All ATMC campuses are located in well lit, busy locations with easy access to public transport. Visit the following links for more information.
• www.atmc.vic.edu.au/campuses
• www.google.com.au/maps/preview
• www.transport.nsw.gov.au/
• www.ptv.vic.gov.au/
• www.cityofsydney.nsw.gov.au/community/safety
• www.melbourne.vic.gov.au/CommunityServices/CommunitySafety/Pages/CommunitySafety.aspx

SAFETY IN THE WATER
Remember to:
• Behave Safely - Obey all water safety signs, don’t drink alcohol, keep an eye on your friends when swimming
• Know Your Environment - Never run, jump or dive in shallow water
• Always Swim Between the Flags - Swim between red and yellow flags wherever possible
• Always swim at a beach patrolled by lifesavers
• Don’t swim at the beach if you are not a confident swimmer
• Be Sun Smart Around the Water - Particular care should be taken from 10 am to 2 pm

HOW TO APPLY

Please carefully read the information below to ensure your student application form is complete to enable processing. If you need assistance with completing your application form, please contact an enrolments officer at info@atmc.vic.edu.au or call +61 3 9639 9399.

Choose the Program that best suits your interests and career goals. Complete the student application form located in this prospectus and attach all relevant documents. Ensure to read the payment and refund, terms and conditions, ATMC policies and procedures.

Once you have submitted your student application form you will receive a letter of offer. The next step is to confirm your enrolment by accepting your offer. To accept your offer, you will be required to complete the international student offer and acceptance agreement form.

Included with your offer will be a detailed guide to accepting your offer to study the Federation University Australia Program or ATMC program. You are required to meet the conditions stated on your letter of offer to enrol in your chosen Program.

ADMISSION PROCEDURES

- Complete all the information required in the student application form.
- Read and understand the Terms and Conditions of Enrolment, payment and refund conditions and Policies and Procedures.
- Attach certified copies of all the academic transcripts and English language proficiency results.
- Attach a certified copy of your passport along with the pages in which your signatures and personal details are mentioned.

DEFERRING, SUSPENDING OR CANCELLING ENROLMENT

Students may apply for deferment of their studies under compassionate or compelling circumstances. Compassionate and compelling circumstances are generally those beyond the control of the student and which impact on the student’s program progress or wellbeing.

Courses & Programs

DIPLOMA OF INFORMATION TECHNOLOGY

Course Details
CRICOS CODE: 075390G
DURATION: 1 year
CAMPUS: Melbourne
ANNUAL FEES: AUD 20,000

Entry Requirements
English: Overall IELTS score of 6.0 with no individual band score less than 6.0 or equivalent.
Academic: Successful completion of Australian Year 12 or overseas equivalent including Mathematics.

Program Outline
The Diploma of Information Technology examines both the organisational and technological issues that are needed for the analysis, design and implementation of information systems. The course provides a state-of-the-art program that considers modern principles and theories of computing together with the practical applications of technology. The Diploma of Information Technology aims to provide students with the foundational knowledge, skills and values to be effective in modern IT environments. The Diploma of Information Technology also provides an exit point for either the Bachelor of Information Technology or the Bachelor of Information Technology (Business Systems).

ASSOCIATE DEGREE OF INFORMATION TECHNOLOGY

Course Details
CRICOS CODE: 066094K
CAMPUS: Melbourne Geelong
DURATION: 2 years
ANNUAL FEES: AUD 20,000

Entry Requirements
English: Overall IELTS score of 6.0 with no individual band score less than 6.0 or equivalent.
Academic: Successful completion of Australian Year 12 or overseas equivalent including Mathematics.

Program Outline
The Associate Degree of Information Technology examines both the organisational and technological issues that are needed for the analysis and design of information systems. In particular, you will have the appropriate knowledge, skills and values to be effective in modern IT environments. Following successful completion of the Associate Degree of Information Technology, graduates are eligible for two years credit and can enter the third year of the Bachelor of Information Technology (Business Systems).

Career Opportunities
Completion of this program will provide you with a variety of Career Opportunities in small, medium and large business and government. Work can be obtained in areas such as web technology, information systems, information technology, electronic commerce, and managers with information technology skills.

BACHELOR OF INFORMATION TECHNOLOGY

Course Details
CRICOS CODE: 074009A
CAMPUS: Melbourne Sydney Geelong
DURATION: 3 years
ANNUAL FEES: AUD 20,000

Entry Requirements
English: Overall IELTS score of 6.0 with no individual band score less than 6.0 or equivalent.
Academic: Successful completion of Australian Year 12 or overseas equivalent including Mathematics.

Program Outline
The Bachelor of Information Technology is an innovative program designed with input from major IT industry partners. Upon completion of the program, you will have achieved industry-recognised qualifications; have the foundation to become a leader in the IT field; be able to understand the impact of technological change; be able to appreciate not only current usage of IT in business and industry environments but also trends in computing; and be able to analyse, design and implement up-to-date computer-based systems including those related to internet technology, multimedia and web-based applications. As a graduate of this program, you will have been provided with a balance between specific knowledge of particular development tools (languages, operating systems, development environments) and general lifelong learning skills, which will ensure that you are able to remain at the forefront of this vibrant and rapidly developing sector.

Career Opportunities
Upon completion of this Program, you will be qualified for a variety of careers in small, medium and large business and government. Careers include network manager, applications developer, programmer, software engineer, systems analyst, multimedia developer, database administrator, project manager and IT consultant.

Program Objectives
This program aims to provide students with a good foundation in IT fundamentals along with the flexibility to specialise in further IT areas or combine their studies with fields outside of IT. The objectives of the Bachelor of Technology are that students should be able to:

- familiarise themselves with the latest developments in information technology;
- show an awareness of ethics and social implications in information technology;
- appreciate the rapidity of technological changes and develop an understanding of fields of study relevant to their chosen specialisations;
- develop a sound working knowledge of traditional software foundations of information technology;
- apply technology skills in a range of areas which are utilising IT;
- evaluate currently existing technology systems and new developments;
- enhance their written and oral communication skills;
- gather, analyse and synthesise information, and to make decisions based on this information.

GRADUATE CERTIFICATE IN INFORMATION TECHNOLOGY (PROFESSIONAL PRACTICE):

The Graduate Certificate will follow the course structure required for the DIAC Gazetted ACS Professional Year, taught by Federation University Australia staff. The program structure will involve two face-to-face courses in Australian Workplace Culture and Workplace Relationships, one fully online course in Professional Environments and an internship course (Work Placement).

Jessica Wai Yan
My name is Jessica Cheng and I am studying a Bachelor of Information Technology in Business Systems at ATMC in Association with Federation University of Australia. There are many reasons why I chose to study in Australia. It is one of the top 3 most popular destinations for international students and Australia has a reputation of quality recognition and assurance. Its a multicultural society and the locals were so friendly to me, they made me feel like I was home. Besides that, when I browsed the web for courses I was amazed by how many courses that were available for international students to choose from. Then I decided I wanted to stay in Australia to study further so I would have a brighter future. Studying in Australia was the best decision I ever made, I have learned to be independent, responsible but most importantly I learned to adapt to a completely different surrounding without relying on my family for support. It was difficult at first when I started studying and working but soon after I managed to balance it out.

**Program Outline**

The Bachelor of Information Technology (Business Systems) examines - with a strong emphasis on electronic commerce - the organisational and technological issues that are needed for the analysis and design of business information systems. The program provides a state-of-the-art program that considers modern principles and theories of computing together with the practical applications of technology. It provides students with the appropriate knowledge, skills and values to be effective in modern business environments. Throughout the program, you will become familiar with the latest developments in IT, and understand the different types of information technology tools and their applications. You will develop an understanding of the organisational settings in which information systems are used, and recognize the threats and opportunities of technology in business. An understanding of the role of modern information systems in society and business is also developed.

**Career Opportunities**

The constantly expanding information infrastructure has opened up many careers for information systems graduates, ranging from the very technical to the very business-oriented. A variety of career opportunities exist in small, medium and large business and government in the major areas of information systems development, systems analysis, systems design, information management, database design and administration, electronic commerce and consultant.

**Program Outline**

The Bachelor of Information Technology (Software Engineering) aims to provide students with the appropriate knowledge, skills and values to be effective in creating high quality software in a controlled and cost efficient manner. This program contains many programming and software engineering courses that will enable students to get work in either field. There are also a number of electives that will enable students to either add depth or breadth to their studies. The material covered throughout the courses in this program reflects the current and future needs of practicing software engineers. In particular, students will be able to apply their skills with two courses dedicated to a real life project. For the non-project courses, students will also be exposed to a large number of case studies from industry. Students will cover object oriented analysis and design in depth rather than covering an overview of many methodologies. This will provide them with a very marketable skill as well as being exposed to other techniques.

**Career Opportunities**

Successful completion of this program will give you the foundation, knowledge and skills to:

- Understand the entire life cycle of software development;
- Understand software engineering standards and why they are needed;
- Appreciate the need for software engineering methodologies;
- Understand the methods and techniques involved in designing, implementing and maintaining an information system, in particular using an object-oriented approach;
- Analyze the causes of failure in information systems.

Courses & Programs

GRADUATE DIPLOMA OF TECHNOLOGY (SOFTWARE ENGINEERING)

Program Outline
Graduates of the Software Engineering stream will also have the specialist knowledge required to understand and implement advanced software engineering techniques - design, implement and maintain IT systems using a well-informed software engineering approach and create high quality software in a systematic and efficient manner. Graduates will gain employment in a wide range of industries including security and defence, education, aerospace, health, business and finance.

Career Opportunities
As a software engineer you will create, maintain and modify computer software as well as analyse current software products. You will also evaluate new programming tools and techniques. Graduates may find employment in a variety of industries with the production of medium to large scale software. Career opportunities include: Software Engineer, Systems Administrator, Systems Designer and Tester, Software Analysis, and Programmer.

Graduates will:
- Understand the entire life cycle of software development
- Understand software engineering standards and why they are needed
- Appreciate the need for software engineering methodologies
- Understand the methods and techniques involved in designing, implementing and maintaining an information system, in particular using an object-oriented approach
- Analyse the causes of failure in information systems

GRADUATE DIPLOMA OF TECHNOLOGY (ENTERPRISE SYSTEMS)

Program Outline
Graduates of the Enterprise Systems stream will be immersed into an ever changing, IT global economic landscape, where a shortage of skilled IT workers in new growth areas such as cloud computing, mobility, data warehousing, business intelligence, and big data techniques is prominent.

Career Opportunities
Graduates of Federation University’s graduate technology programs will develop specialist skills in the design, development and management of technology, information and business systems and be equipped to manage the impact of technology within organisations and thoroughly understand the role of technology in society and business environments.

Our graduates find employment in:
- ERP systems operation
- ERP project management
- Functional analysis
- ERP Data Analyst
- ERP Business Analyst

Courses & Programs

ADVANCED DIPLOMA OF BUSINESS

Program Outline
The Advanced Diploma of Business (Higher Education) is designed to provide introductory and intermediate level skills and knowledge in business related disciplines. The program will provide its graduates with a seamless pathway to advanced level undergraduate studies with direct one-to-one articulation into The Business School undergraduate Bachelor degrees in Business, Commerce or Management. The Advanced Diploma is also recognised as an “exit award” from the Bachelor of Business should a student not be able to complete that program.

BACHELOR OF BUSINESS

Program Outline
The Bachelor of Business will enable students to acquire a sound working knowledge of strategic business concepts. It will provide skills to work in a wide range of business environments or to start up a new business. This program integrates theory and practice, providing graduates with a choice of careers in the ever changing business world.

Career Opportunities
The Bachelor of Business provides a wide range of career options. You might expect to be employed as a business manager, a business consultant, business analyst, researcher or planner, or operate your own business.

Courses & Programs

BACHELOR OF COMMERCE (ACCOUNTING)

**Course Details**
- CRICOS CODE: 044114D
- CAMPUS: Melbourne, Sydney, Geelong
- DURATION: 3 years
- ANNUAL FEES: AUD $20,000

**Entry Requirements**
- English: Overall IELTS score of 6.0 with no individual band score less than 6.0 or equivalent.
- Academic: Successful completion of Australian Year 12 or overseas equivalent.

**Program Outline**
The Bachelor of Commerce (Accounting) is designed as a comprehensive program. It will give students the skills they need to be leaders in commerce and business. It focuses on the courses needed for professional accreditation with the major professional bodies along with providing a well-defined career path for professionals in the world of commerce.

**Career Opportunities**
Graduates with an accounting specialisation are employed in a wide variety of commercial, government and professional settings. These include public accounting, banking, teaching, government organisations, stock broking, business consulting, and the retailing, manufacturing and mining industries. Functional responsibilities include accounting, information systems analysis and design, financial reporting, cost accounting, taxation, auditing, financial planning and general management responsibilities.

**MASTER OF PROFESSIONAL ACCOUNTING (MPA)**

**Course Details**
- CRICOS CODE: 055173B
- CAMPUS: Geelong
- DURATION: 1.5 years
- ANNUAL FEES: AUD $21,400

**Entry Requirements**
- English: Overall IELTS score of 6.0 with no individual band score less than 6.0 or equivalent.
- Academic: Applicants to this program must have completed an Australian Bachelor Degree or overseas equivalent.

**Program Outline**
The Master of Professional Accounting (MPA) program may be completed in three semesters of full time study (or the equivalent part time) and provides a comprehensive sequence of study in accounting, as well as introducing students to related subject areas such as business law, financial management, economics and quantitative methods for business. The program consists of twelve courses of study, representing a total of 180 credit points.

**Career Opportunities**
The primary objective of this program is to enable students with a first degree in a non-accounting field to undertake a professional career in accounting (and/or related fields, such as finance).

**MASTER OF BUSINESS ADMINISTRATION (INTERNATIONAL MANAGEMENT)**

**Course Details**
- CRICOS CODE: 055589G
- CAMPUS: Melbourne, Sydney
- DURATION: 2 years
- ANNUAL FEES: AUD $21,400

**Entry Requirements**
- English: Overall IELTS score of 6.0 with no individual band score less than 6.0 or equivalent.
- Academic: Successful completion of Australian Bachelor Degree or Overseas Equivalent.

**Program Outline**

The Master of Business Administration (International Management) is intended for people who have an undergraduate degree and/or extensive experience working within an organisation. The objectives of the course is to address student learning needs related to lifelong learning capabilities (Candy, Crebert & O’Leary, 1994), generic capabilities and specific management capabilities. In addition to providing economically competitive, market attractive and educationally robust management education, the course is designed to enable students to:

- Develop as high potential individuals capable of serving the advanced management needs of local, national and global enterprises;
- Develop knowledge and competencies for operational and strategic perspectives;
- Acquire sound working knowledge of the core disciplines of business supplemented by an in-depth study of an advanced international specialisation;
- Develop the conceptual frameworks and skills of critical analysis applicable to entrepreneurial operations in a global economy.

**Career Opportunities**

This course is designed for managers to upgrade their skills and qualifications to prepare them for access to career opportunities which will have become evident to them in their current employment, or new opportunities with alternative employers following completion of the course.
